BlueHouse Telecom

Company capabilities

San Diego, California | Nationwide service

BlueHouse Telecom, a brand of BlueHouse Capital LLC, helps businesses compare telecom services and plan installations for one site or many U.S. locations.

Work BlueHouse can quote

Internet and wireless	Business fiber, dedicated internet, cellular plans and backup connections. Compare address availability, installation dates and contract costs.
Phones and networks	Business VoIP, call routing, intercom, Wi-Fi and managed networking. Scope numbers, devices and handoffs between sites.
Security and cabling	Commercial security cameras, door access control, and fiber optic cabling. Review existing equipment, quantities and installation requirements.
Managed services	Endpoint security, managed firewalls and telecom bill reviews. Define coverage hours, responsibilities, recurring fees and renewal dates.

Completed project

San Diego charter school

60 access-controlled doors, 50 security cameras, and VoIP lines with intercom.
